

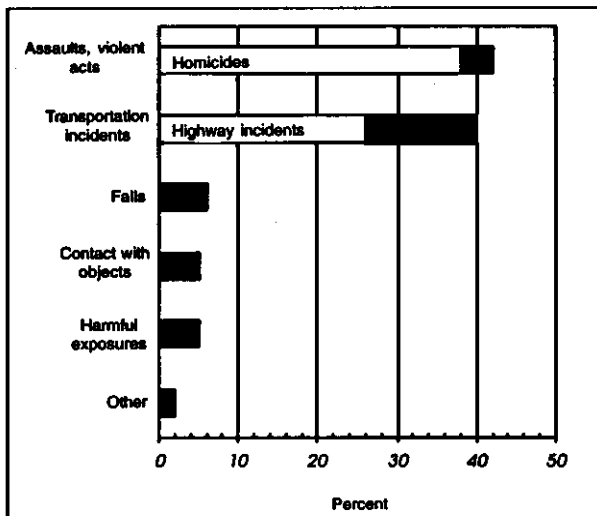

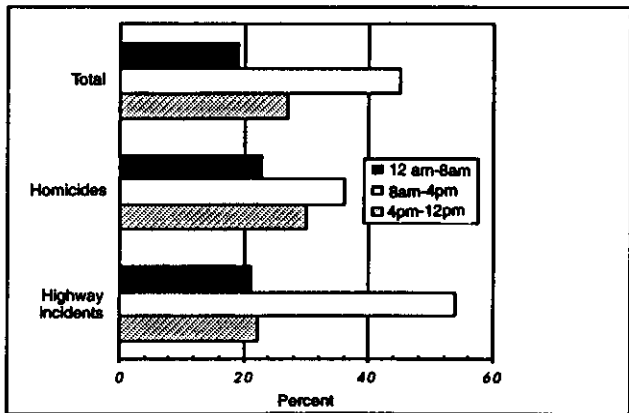

Chart 1. Job-related fatalities among women by event or exposure

¹ Assaults and violent acts are primarily homicides, but also include self-inflicted injuries and assaults by animals.

² Transportation incidents are primarily highway fatalities, but also include nonhighway, railway, water vehicle, and aircraft incidents and workers struck by vehicles.

Chart 2. Women worker fatalities, including homicides and highway incidents, by time of incident, 1992-94

NOTE: A time of incident was not reported for 9 percent of total women worker fatalities, 12 percent of homicides, and 3 percent of highway incidents. These percentages are not reflected in the chart.
